NEW greenteQ ALPHA DOOR HANDLE

Door Handle

We now offer the greenteQ Alpha door handle to suite alongside the existing Alpha espagnolette casement window handle. Alpha has been designed with good looks, long life and a comfortable feel in mind.

It is available with two backplate lengths to accommodate most door locks in popular use today. The short unsprung backplate (220mm) is ideal for sprung 92mm PZ lift/lever or split spindle locks, whilst the 250mm backplate is ideal for double spindle locks such as Millenco Mantis, Paddock, Roto and Yale. The long backplate version is available in sprung or unsprung options, depending on the lock being used.

Alpha is available in lever/lever or lever/turn pad in 5 colours to perfectly match greenteQ Sigma hinges and greenteQ Kappa knockers and viewers, along with Alpha casement handles. Standard finishes are white, PVD gold, polished chrome and black, with brown available as a special.

Each handle is supplied with a spindle/M6 screw pack to allow fitting to doors of all materials from 44 - 72mm thick. Unsightly gaps around the cylinder are eliminated and extra security is provided by a 5mm flange around the cylinder cut-out.

Benefits of Alpha door handles:

- 2 backplate designs and sprung/unsprung options to suit most locks
- 5 attractive colours to match other greenteQ door and window furniture
- Comfortable feel to lever and pad for easy operation
- Flange around cylinder cut-out for and gap elimination & security
- M6 screws for added strength
- Suits all door thicknesses from 44-72mm as standard
- Non-handed
